

Co:OPERATE - Building with purpose, building for all

Introducing SocialConnect and rediscovering Celo's fee currency feature

Presentation on Github: [Oxarthurxyz/cooperate-presentation](https://github.com/Oxarthurxyz/cooperate-presentation)

Part 1: Rediscovering Celo's fee currency feature

Abstracting the concept of gas currencies

- User experience with native tokens: CEL0 , ETH , ...
- User experience with stabletokens cUSD , cEUR , ...

Get started using fee currencies

```
import 'viem' from "viem"  
import { celo } from "viem/chains"  
import { stableTokenABI } from "@celo/abis"
```

```
const transaction = {  
  from: account.address,  
  to,  
  value: parseEther(value),  
  feeCurrency: FEE_CURRENCIES["cusd"],  
}
```

 Full demo on Github: [Oxarthurxyz/ethcc-workshop](https://github.com/Oxarthurxyz/ethcc-workshop)

Part 2: Introducing SocialConnect

Abstracting the concept of hexadecimal addresses

- User experience with **hexadecimal** addresses: `0x76a4dac...a7315`
- User experience with **phone** numbers, **email** addresses, and other social identifiers:
`+54 182 143 21743` , `alice@example.com` , ...

Get started using SocialConnect

```
// upload identifier -> address mapping to onchain registry
await federatedAttestationsContract.registerAttestationAsIssuer(
    obfuscatedIdentifier,
    account,
    NOW_TIMESTAMP
);
```

```
// lookup onchain mapping
const attestations = federatedAttestationsContract.lookupAttestations(
    obfuscatedIdentifier,
    [ this.issuer.address, ]
);
```

Prizes

Celo Foundation will award 5 prizes to the best teams building for Access: onboarding the next billion users utilizing Celo and tools like Account Abstraction and Social Connect.

Best dApps on Celo blockchain

- 🥇 1st Place: \$3,000
- 🥈 2nd Place: \$2,000
- 🥉 3rd Place: \$1,000
- 📱 Best dApp on Celo utilizing Social Connect: \$2,000
- 🏆 Best dApp utilizing Account Abstraction on Celo: \$2,000

Workshop

 This workshop is happening in-person

Build Consumer Focused DApps using SocialConnect and Account Abstraction

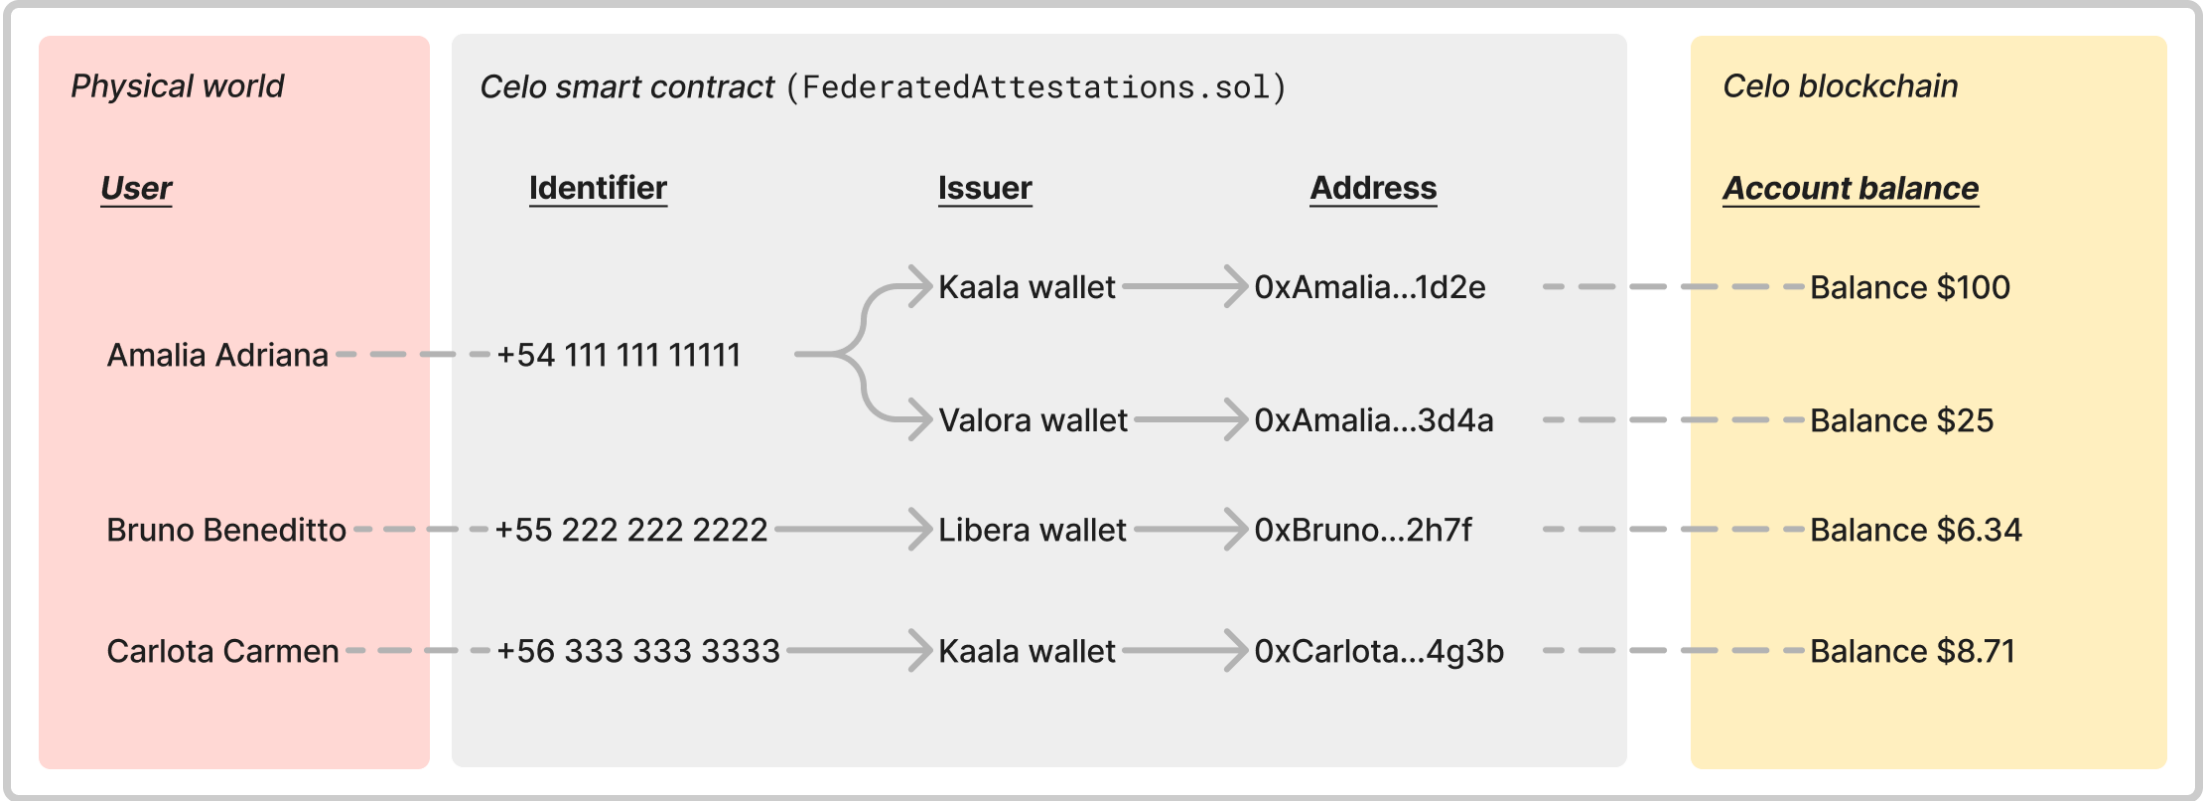

Time: 04:00 PM CEST – Jul 21, 2023

Location: Workshop Room 3

Workshop description ▾

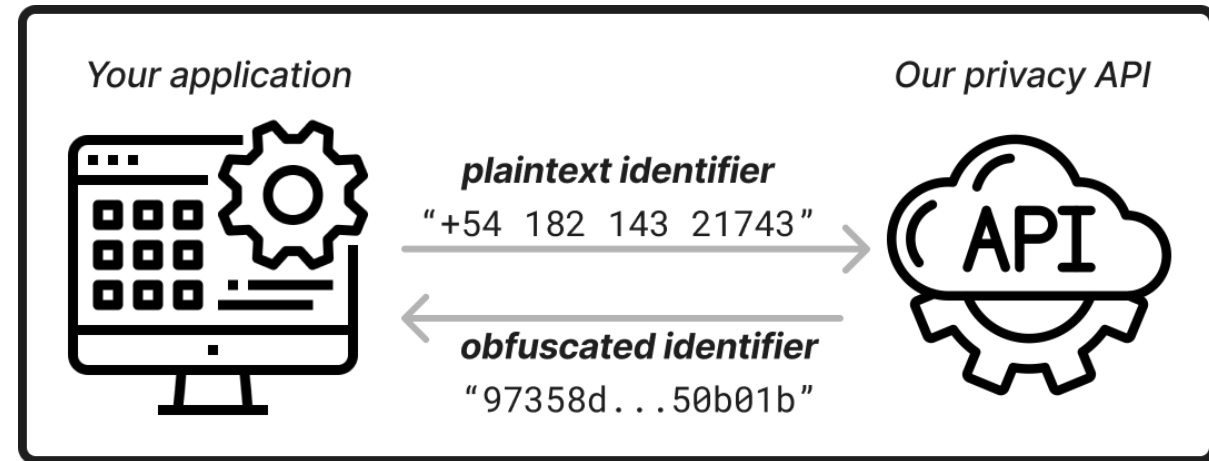

Appendix

SocialConnect Mapping

1 - Obfuscate

Our **privacy** API lets developers obfuscate identifiers while maintaining **interoperability** across applications.

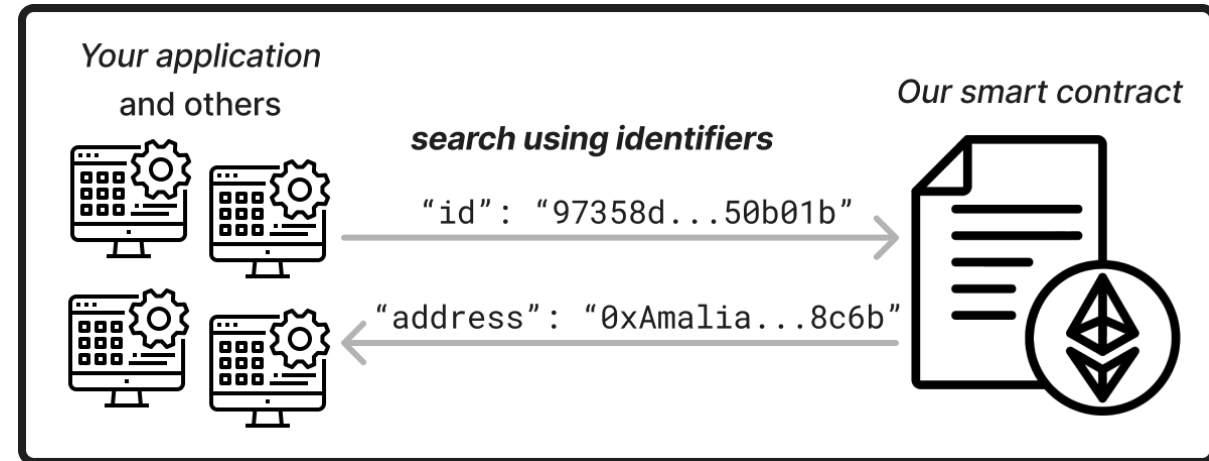

2 - Register

Our SDK gives developers complete **freedom** to design **verification** flows and **register** identifiers.

3 - Search

Our SDK lets developers design **delightful** and intuitive **user experiences**.
